

Paper Work Reduction Act of 1995. Others represent an update to the methodologies used to estimate burden in the ICR. EPA intends to examine how the UIC program could assist in reducing the burden on the States for reporting requirements and will be working with selected State officials as we work on this renewal. Any recommendations from the underground injection control community and the general public on this issue will be given consideration by the Agency.

**Elizabeth Fellows,**

*Acting Director, Office of Ground Water and Drinking Water, U.S. Environmental Protection Agency.*

### Underground Injection Control Program Hazardous Waste Land Disposal Restrictions; Petition for Reissuance of an Exemption—Class I Hazardous Waste Injection Wells, E.I. du Pont de Nemours & Co., Inc. (DuPont)

**AGENCY:** Environmental Protection Agency.

**ACTION:** Notice of final decision on the exemption reissuance.

**SUMMARY:** Notice is hereby given that a petition for the reissuance of an exemption to the land disposal restrictions under the 1984 Hazardous and Solid Waste Amendments to the Resource Conservation and Recovery Act has been granted to DuPont, for the Class I injection wells located at the Victoria, Texas facility. As required by 40 CFR part 148, the company has adequately demonstrated to the satisfaction of the Environmental Protection Agency by petition and supporting documentation that, to a reasonable degree of certainty, there will be no migration of hazardous constituents from the injection zone for as long as the waste remains hazardous. This final decision allows the underground injection by DuPont, of the specific restricted hazardous waste identified in the petition, into the Class I hazardous waste injection wells at the Victoria, Texas facility until December 31, 2000, unless EPA moves to terminate the exemption under provisions of 40 CFR 148.24. As required by 40 CFR 148.22(b) and 124.10, a public notice was issued on December 1, 1997. The public comment period closed on January 15, 1998. All

comments have been addressed and have been considered in the final decision. This decision constitutes final Agency action and there is no Administrative appeal.

**DATES:** This action is effective as of February 11, 1998.

**ADDRESSES:** Copies of the exemption reissuance and all pertinent information relating thereto (including EPA's response to public comments on the exemption reissuance proposal) are on file at the following location: Environmental Protection Agency, Region 6, Water Quality Protection Division, Source Water Protection Branch (6WQ-S), 1445 Ross Avenue, Dallas, Texas 75202-2733.

**FOR FURTHER INFORMATION CONTACT:** Philip Dellinger, Chief, Ground Water/UIC Section, EPA—Region 6, telephone (214) 665-7165.

**William B. Hathaway,**

### National Advisory Committee for Acute Exposure Guideline Levels for Hazardous Substances; Notice of Public Meeting

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** A meeting of the National Advisory Committee for Acute Exposure Guideline Levels for Hazardous Substances (NAC/AEGL Committee) will be held on March 10-12, 1998, in Washington, DC. At this meeting, the NAC/AEGL Committee will address, as time permits, the various aspects of the acute toxicity and the development of Acute Exposure Guideline Levels (AEGLs) for the following chemicals: acrolein, bromine, chloromethyl methyl ether, epichlorohydrin, methyl trichlorosilane, nickel carbonyl, nitric oxide, trimethyl chlorosilane, and literature review on jet fuel (JP-4, 5, 7 and 8).

**DATES:** A meeting of the NAC/AEGL Committee will be held from 10 a.m. to 5 p.m. on Tuesday, March 10; from 8:30 a.m. to 5 p.m. on Wednesday, March 11; and from 8:30 a.m. to 1 p.m. on Thursday, March 12, 1998.

**ADDRESSES:** The meeting will be held in the Old Post Office, Room M09, 1100

Pennsylvania Ave., NW., Washington, DC (Federal Triangle Metro Stop).

**FOR FURTHER INFORMATION CONTACT:** Paul S. Tobin, Designated Federal Officer (DFO), Office of Prevention, Pesticides and Toxic Substances (7406), 401 M St., SW., Washington, DC 20460, (202) 260-1736, e-mail:

tobin.paul@epamail.epa.gov.

**SUPPLEMENTARY INFORMATION:**

### I. Electronic Availability

#### Internet

Electronic copies of this notice and various support documents are available from the EPA Home Page at the **Federal Register**—Environmental Documents entry for this document under "Laws and Regulations" (<http://www.epa.gov/fedrgstr/>).

#### Fax-On-Demand

Using a faxphone call (202) 401-0527 and select item 4800 for an index of items in this category.

### II. Meeting Procedures

For further information on the scheduled meeting, the agenda of the NAC/AEGL Committee, or the submission or presentation of information on chemicals to be discussed at the meeting, contact the DFO.

The meeting of the NAC/AEGL Committee will be open to the public. Oral presentations or statements by interested parties will be limited to 10 minutes. Interested parties are encouraged to contact the DFO to schedule presentations before the NAC/AEGL Committee. Since seating for outside observers may be limited, those wishing to attend the meeting as observers are also encouraged to contact the DFO at the earliest possible date to ensure adequate seating arrangements. Inquiries regarding oral presentations or the submission of written statements or chemical-specific information should be directed to the DFO.

Another meeting of the NAC/AEGL Committee is expected to be held on June 15, 16, and 17, 1998 [currently planned to be held at Oak Ridge National Laboratory, 1060 Commerce Park, Oak Ridge, TN]. It is anticipated that chemicals to be addressed at the Oak Ridge, TN meeting will include, but not necessarily be limited to the following: chloroform, crotonaldehyde (E), HFC-134a, HCFC-141b, methyl isocyanate, peracetic acid, piperidine, sulfur dioxide, sulfur trioxide, and sulfuric acid. Inquiries regarding the submission of data, written statements, or chemical-specific information on these chemicals should be directed to the DFO at the earliest possible date to
